

Customer Certification for Battery exchange under warranty

I certify that I have maintained the battery as instructed in the user's manual:

1. Charge the battery for at least 12 hours prior to my first use.
2. Fully charge the battery within 3 hours after each use.
3. I did not over discharge the battery by playing more than 18 holes of golf.
4. I keep the battery on charge between golf rounds.
5. I re-charge the fully charged battery every 2 months if the battery has not been used for that period and store the battery under the room temperature environment.

I agreed to pay Caddytek Inc. the cost for the new battery if the failure of the returned battery is caused by in-proper use or charging practices. The test of the returned battery will be done by the battery manufacture.
